Brand foundation

Your agents. In view.

AUDIENCE

People who run coding agents on their own machines and want to step away without losing the thread.

JOB

Show which agent needs you, give enough context to decide, and carry the reply back to the right session.

PERSONALITY PRINCIPLES

1 **Calm**

Quiet by default. Interrupt only when a person is needed, and never twice for the same thing.

2 **Precise**

Say exactly what happened, what is waiting and where a reply will go.

3 **Warm**

Let the mascot carry the charm. Let the words carry the clarity.

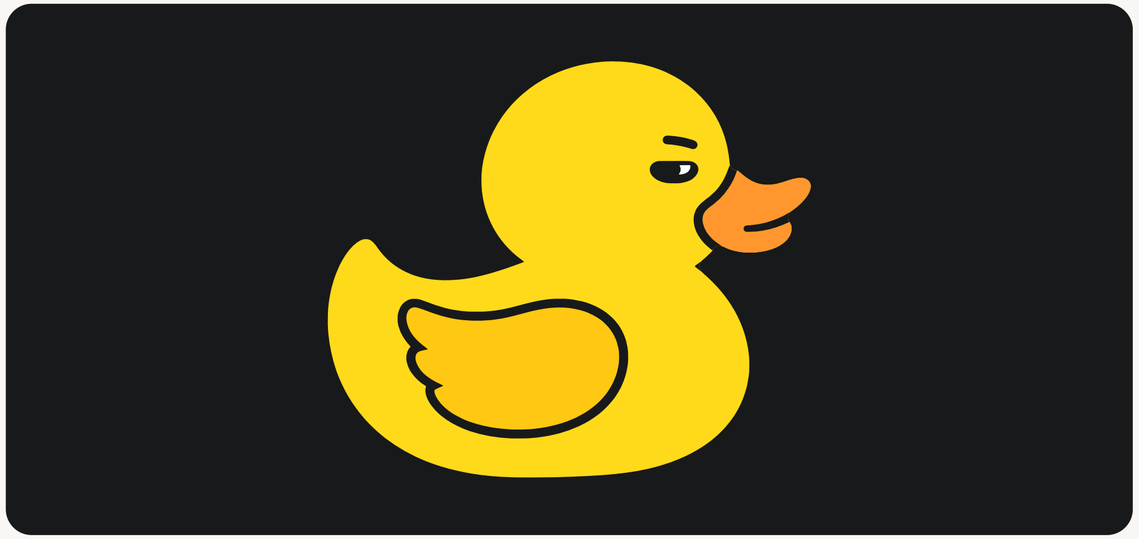

THE NAME

Squeak

A rubber duck sits beside the work and says nothing until it matters. Then it squeaks: one short, friendly sound that tells you something needs you.

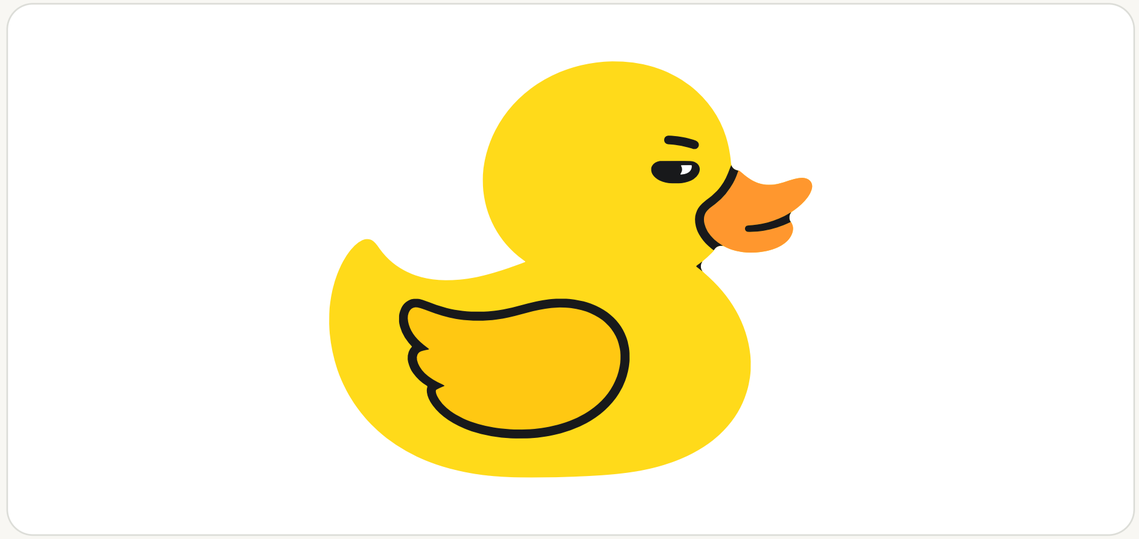

Primary identity

The approved logo is the sleepy-eyed duck facing right, with an orange bill, a dark wing contour and a tiny eyebrow. This master is the canonical vector adaptation: native paths redrawn from the approved source raster, which stays unmodified in the kit as the reference of record.

FULL COLOR ON DARK

Ink #18191B and Dark Surface #242629 grounds.

FULL COLOR ON LIGHT

Paper #F8F7F3 and White #FFFFFF grounds.

Contours

Head, body and wing keep the approved silhouette. The wing contour stays dark.

Bill and smile

A clean orange bill and a small, relaxed smile. Nothing added or removed.

Sleepy eye

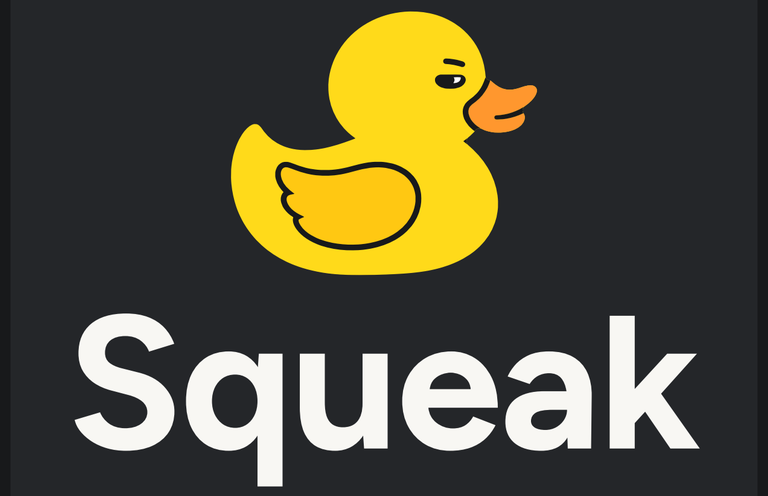

The half-lidded eye and tiny eyebrow are the expression. Never widen or open it.

Lockups

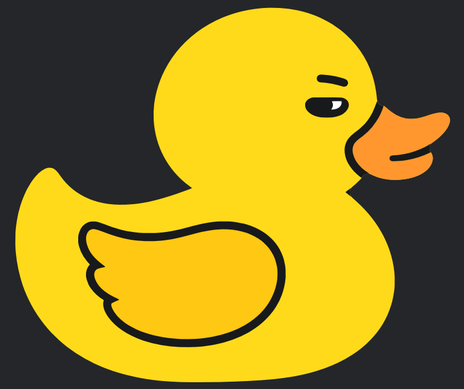

Horizontal

The default for headers, documents and toolbars.

Stacked

For square or narrow spaces such as cards and sign-in screens.

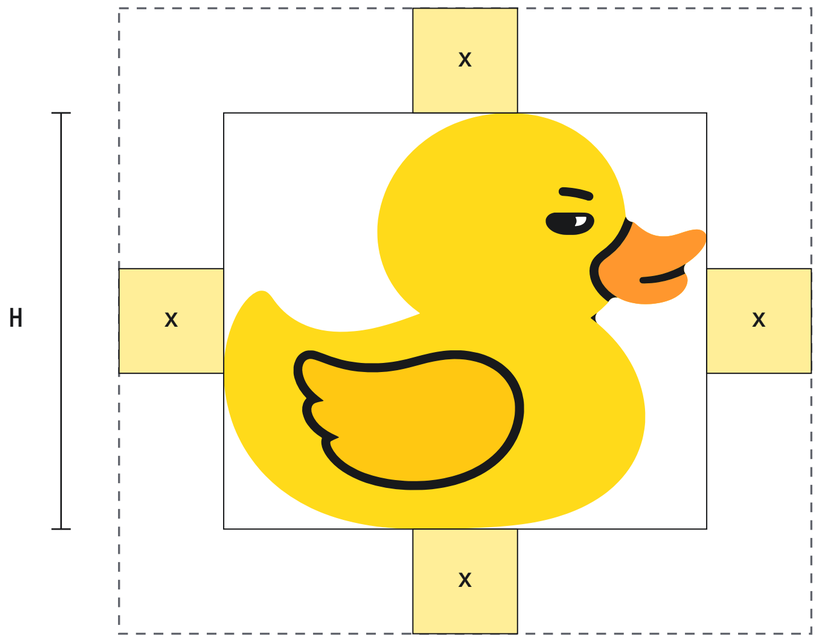

Symbol only

For avatars, app icons and favicons where the name appears nearby.

PROPORTIONS

Horizontal: gap = 0.18 × symbol height, wordmark size = 0.60 × symbol height, baseline 0.74 × height below the symbol top.
Stacked: gap = 0.14 × symbol height, wordmark size = 0.62 × symbol width, centered.
Wordmark: live Figtree Bold, tracking -10, set once. Outlined SVG lockups ship in the kit for use outside Illustrator.

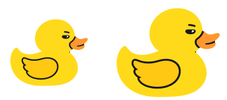

Clear space and minimum sizes

x = ¼ × H, where H is the full height of the symbol.

Keep this space clear of text, edges and other graphics. Measure from the outermost contour.

MINIMUM SIZES (SCREEN, ACTUAL PIXELS)

Detailed mark

`48 px and larger`

Full detail: eye, eyebrow, wing contour.

Compact mark

`24 to 47 px`

Reduced wing, no catchlight.

Silhouette

`16 to 23 px`

Head and bill shape only. Not the detailed logo.

PRINT

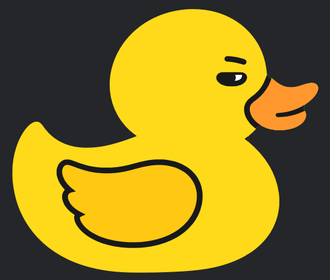

Detailed 12 mm wide, compact 8 mm, silhouette 5 mm. These are starting limits. Proof before production.

MONOCHROME

Same clear space. Needs 3 : 1 against its ground. Keep the ground flat, never a photo or pattern.

Pixel sizes above are shown at 100%. Millimeter limits are guidance for this RGB-first brand, not a print specification.

Responsive and monochrome

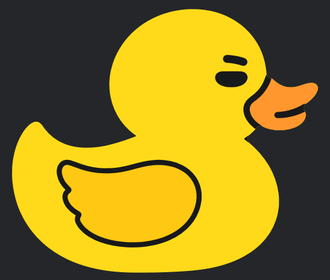

DETAILED 48 px and up

Actual size

Eye, eyebrow, smile and wing contour all present.

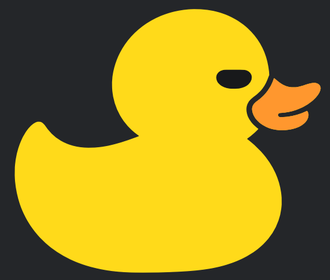

COMPACT 24 to 47 px

Actual size

Wing simplified, catchlight removed. Eye and bill stay.

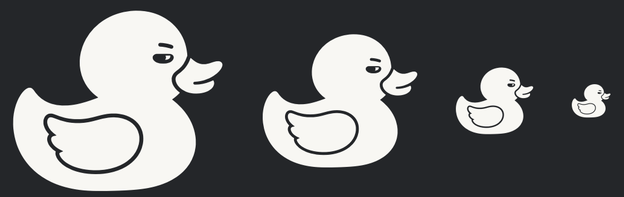

SILHOUETTE 16 to 23 px

Actual size

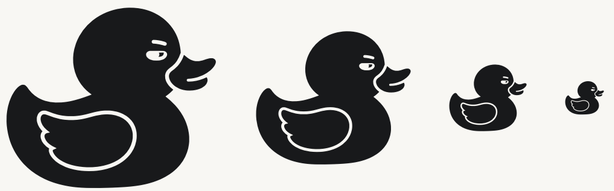

Head and bill only. A mark, not the full logo.

MONOCHROME

Paper on dark

One flat color, no outline.

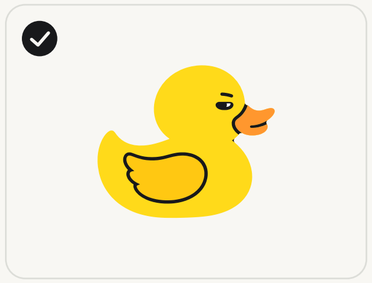

Ink on light

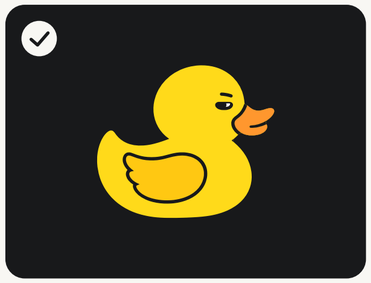

One flat color, no outline.

Logo usage

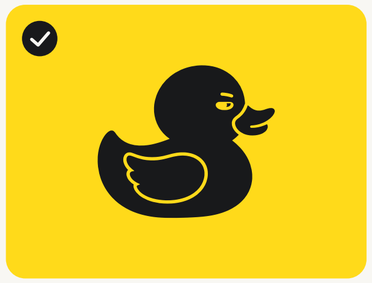

CORRECT

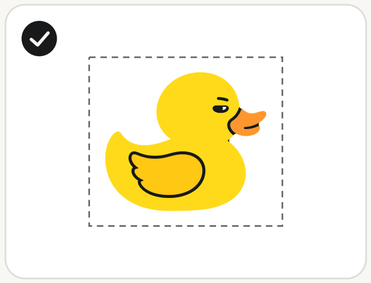

On Paper or White
Default light application.

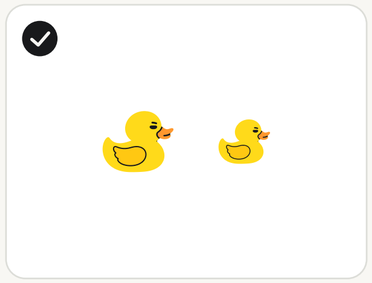

On Ink
Default dark application.

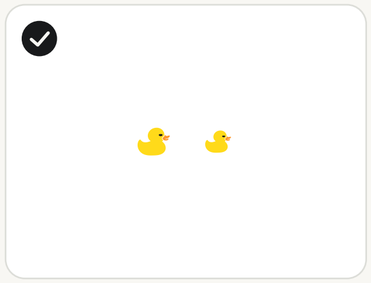

Mono on Duck Yellow
Flat Ink mark for yellow grounds.

Clear space kept
At least ¼ of mark height.

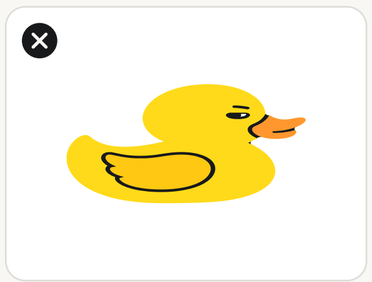

Compact under 48 px
Switch variants at 47 px and below.

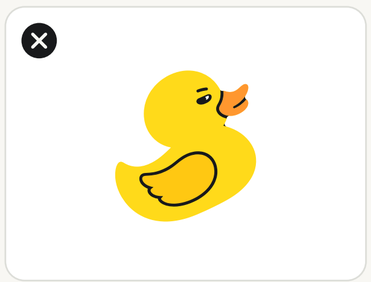

Silhouette under 24 px
16 to 23 px, small UI only.

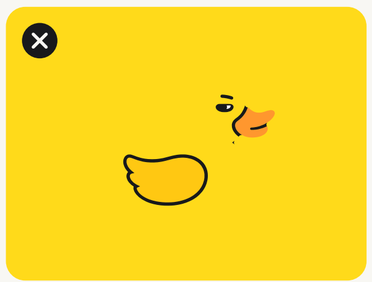

AVOID

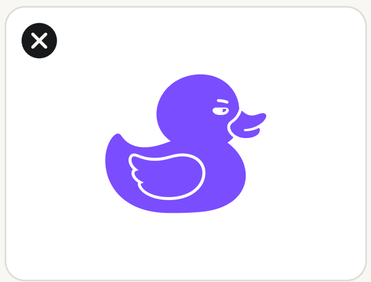

Don't stretch
Scale evenly, always.

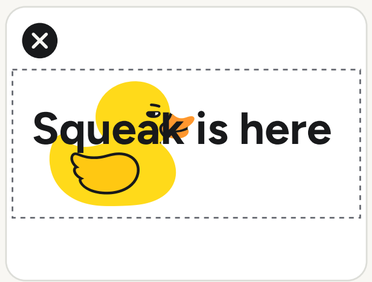

Don't rotate
Keep the duck upright.

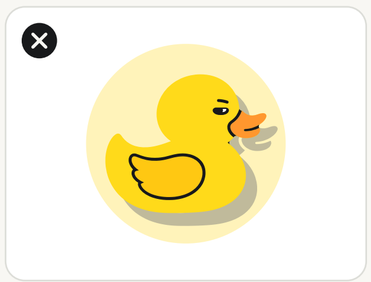

Don't lose contrast
Yellow on yellow disappears.

Don't recolor
Only approved colors.

Don't crowd
No type or edges inside clear space.

Don't add effects
No shadows, glows or outlines.

Brand color

Duck Yellow

#FFDA1A
RGB 255 218 26
CMYK ≈ 0 15 90 0

Identity signature. The duck, highlights and key accents. A fill, never body text on light.

Bill Orange

#FF972E
RGB 255 151 46
CMYK ≈ 0 41 82 0

The bill, and rare warm accents. Never body text.

Ink

#18191B
RGB 24 25 27
CMYK ≈ 11 7 0 89

Text, dark grounds and the duck's contour lines.

Paper

#F8F7F3
RGB 248 247 243
CMYK ≈ 0 0 2 3

The default warm ground for pages and documents.

NEUTRAL RAMP

White	Paper	Line	Dark Muted	Slate	Dark Surface	Ink
#FFFFFF	#F8F7F3	#DCDDD8	#ACAFB5	#62656D	#242629	#18191B

BALANCE IN BRAND COMPOSITIONS

Paper and White	45%	Ink	30%
Duck Yellow	12%	Slate and Line	10%
Bill Orange	3%		

Percentages total 100. CMYK is an uncalibrated conversion shown for orientation, not a print-certified match. Squeak is RGB-first.

Typography

Figtree

Wordmark, headings and editorial display.

MARKETING SCALE

Display · Figtree 700 · 96 / 100 · -2%

Your agents.

Headline · Figtree 700 · 56 / 60 · -1%

Calm, clear, useful

Title · Figtree 600 · 32 / 40 · 0%

Which agent needs you

Body · Inter 400 · 22 / 32 · 0%

Squeak gathers every question from your agents into one calm inbox.

Label · JetBrains Mono 500 · 16 / 20 · +8%, caps

EDITION 01 · OCTOBER 2026

SETTING TYPE

Sentence case

Headlines and titles in sentence case. Capitals only for the mono label style.

Tight display, open labels

Track display sizes in. Open mono labels up to +8%, in caps.

Comfortable measure

Body copy runs 45 to 75 characters a line, left aligned, never justified.

One weight step

Size first. Pair 700 headings with 400 body, nothing between.

Mono means data

JetBrains Mono is for labels, names and figures, never for sentences.

The wordmark is not a text style

Squeak is a fixed logo asset: Figtree Bold with fixed spacing. Do not restyle it, and do not use it as a heading. In running copy, write Squeak in sentence case.

Squeak

Voice and writing

VOICE

Calm

Plain words. No exclamation marks, no urgency theater.

Clear

Say what happened, what is waiting and what a reply will do.

Lightly witty

Charm lives in the mascot. The words stay plain.

Useful

Say what Squeak does for the reader, in their words.

NAMING AND CASE

Sentence case everywhere, headlines included. The product is Squeak. Platforms keep their own capitalization: Mac, iPhone, Telegram, Cliq. Tagline: “Your agents. In view.” Both full stops. One duck joke at most, and never in a headline.

BEFORE	AFTER
TAGLINE The ultimate AI agent command center!	Your agents. In view.
DESCRIPTION Revolutionary AI-powered productivity for developers.	An attention inbox for the coding agents you already use.
ANNOUNCEMENT Squeak is here to supercharge your workflow!!	Squeak tells you which coding agent needs you, and carries your answer back. On Mac, iPhone and Telegram.
BIO Quack quack! The quackiest way to herd your AI agents.	Squeak. A pager for your coding agents.

Mascot and imagery

Approved expression

Sleepy-eyed, confident, facing right. It is the only expression. The master is never redrawn, only placed.

FRAMING AND CROPPING

Full

Whole duck, clear space kept.

Head crop

Crop the master. Never redraw it.

Avatar circle

Centered on Ink, with margin.

DO

One mascot moment per page or layout.

Flat brand colors on Paper, White, Ink or Dark Surface.

Crop the master for avatars and icons. Do not redraw it.

AVOID

No new emotions, props or costumes on the master.

No off-model redesigns or alternate poses.

No mascot as a pattern, bullet or decoration.

IMAGERY

Flat color, the duck and plenty of space. Honest work over staged scenes. No stock photos of people at laptops.

Applications

APP ICON · 1024 PX CANVAS

Square canvas, no baked mask. Symbol about 65% wide, centered, on Ink.

PLATFORM MASKS · ILLUSTRATIVE

Rounded square

Mac tile

Circle crop

Shapes are illustrative. Follow each platform's current icon template when exporting.

AVATAR

Circle crop on Ink. Compact below 48 px.

Production and handoff

FILES

Asset naming

Lowercase, hyphenated: squeak-asset-variant-tone-width. Example: squeak-lockup-horizontal-paper-1600.png. Ink tone is for light grounds, paper tone for dark.

COLOR

RGB first and tokens

Hex values, role tokens and an ASE swatch file ship in the tokens folder. Use the role token, not the nearest swatch. CMYK is an approximate example only.

TYPE

Live type and fonts

Figtree, Inter and JetBrains Mono ship in the fonts folder with their SIL OFL license texts. Install them before opening the AI file.

LOGO

Variants

Detailed, compact, silhouette and mono, each for dark and light, as transparent SVG and PNG. Never export onto a baked-in square.

FORMATS

AI, PDF, SVG, PNG

AI is the editable master with native paths and live text. PDF carries all 14 pages for reading. SVG is for web and screens. PNG is for slides and chat.

STATUS

Sources and scope

The approved source raster is kept unmodified in the kit. Font sources are listed with the licenses. This is a v1 design proposal, not a statement of current app behavior.
